## KITCHEN RANGES

*Premiere collection*

Although Simon Bray has been designing kitchens for years, Model 20 is his first ever range. Made with retro-style, end-grain veneer, hi-gloss acrylic and cool aluminium, the collection uses high-end materials perfectly suited to a hard-working kitchen. The decorative pattern of the wood makes a dramatic statement when paired with simple white gloss and offers a shiny surface, great for both smaller and larger rooms. Prices start from £50,000
