Oxford is the place to visit for a masterclass in kitchen design from an award-winning retailer

Report: Jackie Daly

Crowned Master Retailer of the Year in the kitchen industry's equivalent to the Oscars – the Kitchen Architecture Awards 2010 – Kitchen Architecture knows a thing or two about creating the perfect shopping experience within the perfect setting.

Boasting one of the strongest Bulthaup teams in the world and displaying the most up-to-date range of Bulthaup furniture in Europe, its newly renovated showroom in Oxford sits proudly alongside a London showroom, demonstrating you don't have to be a city slicker to enjoy stylish kitchen living.

Behind the sleek glass showroom façade you'll discover five displays that provide an inspirational environment, particularly for anyone considering an open-plan living space. Part of the showroom is styled with natural stone flooring, with wood and bronze accents for an organic, period feel, while the side extension is an architectural white space, allowing you to visualise the furniture in your own home – be it classic or contemporary.

"Our driving force is to give unrivalled service, product knowledge and project delivery," explains

MD Rob Gelling. "Constantly striving to surpass the expectations of our clients, we are delighted to display the latest Bulthaup ranges in our Summertown showroom."
